

We build local AI
for
businesses.

*Sovereign AI
for Europe*

IGNAITE

(m/f/d)

Embedded Engineer wanted!

Internship, thesis, working student or part-time

You'll support our team in developing a local state-of-the-art edge AI hardware platform

Your Role

- Work on embedded and Linux systems
- Integration of sensors for industrial applications
- Support connecting hardware and software

What You Bring

- Solid knowledge of C/C++; experience with Zig or Rust is a plus
- Experience with low-level software development on microcontrollers
- Basic knowledge of electrical engineering and industrial interfaces

Your Benefits

- 💧 Flexibility: Remote and/or office **right on Campus**
- 💧 Work on production AI systems for the German Mittelstand
- 💧 Direct insights into a growing tech company
- 💧 Space for your own ideas
- 💧 Flat hierarchies and lots of personal responsibility
